Advanced Facilitator: Value Stream Mapping Micro-Credential

Master the art of facilitating the Value Stream Mapping workshop

Value stream management (VSM) is gaining traction globally as a way for organizations to optimize the product development lifecycle. As a result, the demand for training opportunities around VSM concepts has risen dramatically. Agile leaders and coaches need quick and immediate access to the knowledge and skills to be able to meet the growing demand for VSM training. Offered as part of our advanced facilitator series, this new SAFe Micro-credentials course makes it easy and convenient for participants to get enabled to facilitate the Value Stream Workshop.

Advanced Facilitator: Value Stream Mapping Micro-Credential

Micro-Credential Description

Advanced Facilitator: Value Stream Mapping prepares participants to confidently facilitate the Value Stream Workshop. Participants will attend a live session with industry experts and peers where they'll work through practical exercises and real-world scenarios. By attending this Micro-Credential Course, participants will get access to the tools and resources they need to facilitate the Value Stream Mapping Workshop. They'll also earn a SAFe Micro-credential certification to demonstrate their competency.

Suggested Path

Implementing SAFe OR SAFe Release Train Engineer + Advanced Facilitator: Value Stream Mapping + Value Stream Mapping Workshop using resources from SAFe Studio

Micro-Credential Details

Duration: 5 hours

Required Pre-work: A self-directed e-learning that must be completed before the live session

Facilitated Session: A live, hands-on session facilitated by experts designed to help you put into practice what you learned in the e-learning

Assessment: Participants are assessed throughout the learning via knowledge checks and activities

Achievement: Earn a SAFe Micro-credential achievement upon completion

Target audience: SPCs, RTEs, Agile Coaches, or anyone preparing to facilitate the Value Stream Mapping Workshop

Key Attendee Benefits

- Hear expert guidance live and engage with concepts through hands-on, interactive exercises to improve mastery of new skills
- Earn a recognized SAFe micro-credential badge and show proven competency
- Be prepared to run the Value Stream Workshop and equip teams to identify and manage their value streams effectively
- Learn valuable skills to grow your impact in an Agile organization
