

COURSE BROCHURE · VERSION 2026

No-Code AI App Builder™

Build apps you can sell, or use to grow your own business

2 days

LIVE ONLINE

8 hrs

PDUS & SEUS

Included

COURSEWARE

\$400

PER SEAT

NEW IN THIS RELEASE

A real business problem first

You start with a need worth solving, not with a template tour of a no-code tool.

Built to sell or to use

The same process works for a client engagement or an internal operations tool.

A repeatable service

You leave with a published app and a way to turn one successful build into more.

AT A GLANCE

Course version	2026
Format	Live online
Duration	2 days · 8 hours
Credits	8 PDUs
Assessment	Working app, no exam
Credential	No-Code AI App Builder™
Prerequisites	None
Investment	\$400 \$800

Training a team?

25% off any group of five or more, plus private cohorts scheduled around your PI calendar. Email d.stevenson@agile36.com.

★★★★★ 4.9 / 5

Rated by learners on Google. Agile36 has trained professionals at Fortune 100 and Fortune 500 companies, government agencies, and universities for more than a decade.

WHAT CHANGED IN VERSION 2026

Not a practice app you abandon

You finish with a published application and a client-ready demonstration.

Eight hours, four hours a day

Two live days. You build the whole time.

No coding required

AI-powered no-code tools, not a programming class.

01 · PROGRAM OVERVIEW

Build apps you can sell, or use to grow your own business

Learn how to turn real business problems into working applications without manually writing code.

You will identify a valuable need, turn it into requirements, build the application with AI, customize it for a client, and package it as a service you can sell.

THE AGILE36 DIFFERENCE

You will not simply build a practice app and forget it after class. You learn a repeatable process: Business Problem → App Requirements → Working Solution → Client Customization → Published App → Sellable Service.

Every class is live, capped for discussion, and led by practitioners who have led enterprise AI and transformation programs.

2

Days, live and instructor-led

4

Hours per day

8

Hours of live training

1

Working app, ready to publish

WHAT'S INCLUDED

8 hours live

2 days of instructor-led virtual classroom — not recordings.

Certification

No-Code AI App Builder™.

8 PDUs

Credit toward PMI and Scrum Alliance renewal requirements.

Post-class coaching

One-to-one executive coaching sessions after the cohort ends.

Digital workbook

The 2026 courseware, yours to keep and annotate.

AI prompt library

Reusable prompt patterns you can run the week after class.

Case studies

Real-world scenarios from organizations already doing this.

Free reschedule

Miss a session and join the next cohort at no extra cost.

Hands-on, not lecture. The class runs on activities, small-group discussion, role-play, and a running case study — including 4 AI activities where you write prompts, critique the output, and edit it into something a real team could use.

02 · WHY THIS CERTIFICATION, NOW

Custom software used to be expensive and slow

AI-powered no-code platforms changed that. You leave able to move from Business Problem → App Requirements → Working Solution → Client Customization → Published App → Sellable Service.

WHERE THIS TRAINING LANDS

Agile36 has delivered this course into:

- ✓ Financial services and insurance
- ✓ Healthcare and life sciences
- ✓ Government and public sector
- ✓ Telecom and media
- ✓ Retail and logistics
- ✓ Higher education

03 · DELIVERY MODE

- ✓ Live virtual classroom delivered remotely worldwide, over 2 days
- ✓ Taught by practitioners who have led enterprise AI and transformation programs, never contractors reading slides
- ✓ Cohorts kept small enough for real discussion and Q&A
- ✓ Open to attendees anywhere — weekday and weekend cohorts across US time zones, with private cohorts timed to your region

PREREQUISITES

- ✓ None. No coding experience is required.
- ✓ Bring a real business problem you would like to solve with an application.
- ✓ A laptop and a willingness to build in the session.

04 · WHAT YOU'LL BE ABLE TO DO

Outcomes you can point to on Monday morning

Find

- ✓ Identify processes small businesses would pay to improve
- ✓ Turn a client conversation into users, workflows, and features
- ✓ Write clear build instructions before you generate the app

Build

- ✓ Generate screens, navigation, and functionality with AI
- ✓ Add data, rules, users, and integrations
- ✓ Customize branding, content, and workflows for a client

Sell

- ✓ Test realistic user scenarios and publish the app
- ✓ Demonstrate the business value
- ✓ Package the build as a repeatable client service

AI-augmented product work NEW

- ✓ Use an **AI-powered no-code platform** to generate the app
- ✓ Add **data, users, workflows, and integrations**
- ✓ Customize **branding, content, and features** for different businesses
- ✓ Test, publish, and **demonstrate** the finished product
- ✓ Package the app as a **service you can sell**

05 · WHO SHOULD ATTEND

Entrepreneurs

Building a product you can sell.

Consultants

Offering app-building as a service.

Small-Business Owners

Replacing spreadsheets and manual work.

Product Managers

Shipping without waiting on engineering.

Product Owners

Turning needs into a working app.

Operations Leads

Building internal tools.

Marketers

Standing up lead and membership tools.

Freelancers

Packaging a repeatable client offer.

Certification. No exam. You earn the No-Code AI App Builder™ certification and leave with a published application and a service offer you can sell.

06 · COURSE CURRICULUM

2 modules, 2 days

The official 2026 module structure.

01 Day One: Find the Opportunity and Build the App

- Identify a valuable small-business problem
- Define the customer and desired business outcome
- Turn the problem into app requirements
- Generate the initial application
- Build the screens, navigation, and user experience
- Add forms, data, and core functionality
- Complete the first working version

02 Day Two: Customize, Launch, and Sell

- Add business rules and advanced features
- Add user accounts and permissions
- Connect external tools and services
- Customize the app for a specific business
- Improve the design and user experience
- Test and publish the finished application
- Create a client-ready demonstration and service offer

07 · AI IN THIS COURSE

Two days, all of them hands-on

Day one is the opportunity and the first working version. Day two is customization, launch, and a service you can sell.

Find the opportunity DAY 1

Identify a valuable small-business problem, define the customer and outcome, and turn it into app requirements.

Build the first version DAY 1

Generate the application, build screens and navigation, and add forms, data, and core functionality.

Customize for a client DAY 2

Add business rules, users, permissions, and integrations, then brand the app for a specific business.

Publish and package DAY 2

Test, publish, demonstrate the finished product, and structure it as a client-ready service offer.

PROMPTING TECHNIQUES YOU'LL TAKE AWAY

- Use an **AI-powered no-code platform** to generate the app
- Add **data, users, workflows, and integrations**
- Customize **branding, content, and features** for different businesses
- Test, publish, and **demonstrate** the finished product
- Package the app as a **service you can sell**

RESPONSIBLE AI

A full topic, not a disclaimer. You'll work through common AI risks and the three aspects of responsible use:

- ✓ **Trustworthy AI:** reliable enough to base a decision on
- ✓ **Explainable AI:** you can say why it produced that
- ✓ **Human-centric AI:** the person stays accountable

08 · YOUR INSTRUCTORS

Taught by practising SPCs

Deadra Stevenson

CEO & Founder · SPC®

15+ years leading large-scale change and 30+ Lean-Agile transformations for Fortune and enterprise organizations. Pairs deep SAFe expertise with practical AI transformation guidance.

Marcus Ball

Enterprise Agile Coach · SPC®

Specializes in SAFe certification training and transformation coaching, helping teams improve flow, alignment, and the value they actually deliver.

Joe Puoci

Enterprise Trainer · SPC®

Delivers live virtual SAFe courses across the portfolio with a focus on real-world scenarios and skills learners can use the week after class.

Martina Svoboda

Enterprise Agile Coach · SPC®

Learner-centered facilitation spanning Agile transformation, organizational development, and change leadership.

ENROLL

\$400 ~~\$800~~ per seat, everything included

Weekday and weekend cohorts running throughout the year. Groups of five or more save 25%; private cohorts can be scheduled around your PI calendar.
